Top Tips

- 🔧 Blocked sink? Help prevent this - don't put food i.e. rice or oil down the kitchen sink.
- 🔧 Blocked shower drain? Help prevent this by removing all hair from shower and bedroom sink on a regular basis.
- 🔧 Keep your door handles clear from coats, clothing, and other items as this can cause your door to stop working.
- 🔧 You must not overload the sockets or use extension leads in your room or kitchen.
- 🔧 Do not wash your clothes in the shower or sink.

Legionella

To prevent the risk of Legionella, it is important to run fresh water through the shower and taps at least once a week. If you are going to be absent for more than a week, please inform us by logging a request through your accommodation account.

You are able to control the heating in your bedroom and communal area by twisting the knob on your radiator. Consult our reception team to find out what the heating times are.

Waste management

Residents of Elms BT9 are responsible for their own waste management.

Residents must move all general waste, food waste and recycling to your designated waste centre. Recycling and food waste must be taken to the waste centres highlighted on the maps (at the end of the Handbook). Students can collect bio-degradable green bags to dispose of food waste from the Residential Life Office downstairs in the Treehouse.

Willow Walk residents must take all rubbish and recycling to their Waste Centre. Students living in all other properties must place all rubbish, food waste and recycling in the appropriate bins to the rear of their property.

For more information please read [Queen's University Equality and Diversity policy](#) and our [Student Anti-Bullying and Harassment policy](#).

Neighbours

Living with others in university accommodation brings with it a responsibility to treat others as you would like to be treated. Be mindful of your flatmates when socialising and taking part in recreational activities within your residence. Please return to your room as quietly as possible when coming home late at night. Keep noise to a level that does not interfere with the study, sleep, and comfort of other students and local residents.

Common causes of tension include:
